

ATIQ UR REHMAN

Software Engineer

📍 Peshawar, Pakistan 📞 +92 347 3875626 ✉️ atiqd300@gmail.com [in linkedin.com/in/atiq-rehman](https://www.linkedin.com/in/atiq-rehman)

Summary

Software Engineering student and Full-Stack Developer with expertise in Node.js, Express, MySQL, and C++. Recognized for strong problem-solving abilities and adaptability in collaborative team environments. Proven track record of delivering scalable applications and optimizing system performance. Eager to leverage analytical skills for data-driven insights in a professional engineering role.

Skills

Programming Languages: C++, Java, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Node.js, Express.js, React

Database & Administration: MySQL, DBMS, XAMPP, Relational Database Design

Tools & Systems: Linux, Fedora Workstation, Btrfs, Bash, Git, System Troubleshooting

Soft Skills: Agile Collaboration, Analytical Problem Solving, Cross-functional Communication, Adaptability

Leadership & Volunteer Experience

General Member / Technical Volunteer

September 2025 – Present

Google Developer Groups on Campus (GDGOC) – FAST

Peshawar, Pakistan

- **Collaborated with a team of 5 peers** to organize 4 technical workshops and coding bootcamps, **successfully engaging over 50 students** in the campus tech community.
- Managed event logistics and **facilitated 15+ peer-to-peer learning workshops** focused on modern web development frameworks, increasing participant coding proficiency.

General Member

October 2025 – Present

FAST Problem Solving Society (FPSC)

Peshawar, Pakistan

- Organized 2 large-scale inter-university competitive programming contests, **ensuring flawless execution for 100+ participants**.
- **Mentored 20+ junior students** during routine meetups, collaboratively improving algorithmic problem-solving skills and accelerating C++ and Java learning curves.

Logistics Coordinator / Volunteer

October 2024 – Present

IEEE Student Branch

Peshawar, Pakistan

- Spearheaded procurement operations for 4 campus-wide seminars, managing the **timely acquisition of 50+ essential event supplies**.
- Directed resource allocation and vendor interactions to secure equipment **within a 50,000 PKR budget, reducing projected event costs by 15%**.

Projects

BloodCare Management System | Node.js, Express, MySQL, JavaScript, HTML/CSS

April 2026

- Developed a centralized digital blood bank management system, **reducing simulated donor registration time by 40%** through automated workflows.
- Engineered a secure relational database schema **comprising 12 optimized tables in MySQL**, implementing strict foreign key constraints and bcrypt hashing.
- Integrated an automated SMTP email engine using Nodemailer to **dispatch 100+ authenticated welcome emails** and real-time status updates.
- Designed a responsive, mobile-first user interface utilizing CSS Grid and vanilla JavaScript, **improving cross-device rendering speed by 25%**.

Digital Logic Calculator Simulation | Hardware Logic, Circuit Design

April 2025

- **Designed and simulated a 4-bit complex digital logic calculator**, achieving flawless accuracy in binary arithmetic operations for a final semester project.
- **Utilized 25+ fundamental hardware components**, including logic gates, adders, and comparators, to process structural inputs.
- Engineered the output architecture to successfully display processed binary calculations directly onto dual 7-segment displays **without processing latency**.

Professional Development & Continuous Learning

- **Data Science & Analytics Coursework (In Progress):** Actively pursuing 3+ specialized online courses focused on data manipulation, statistical analysis, and machine learning.
- **Analytical Writing:** Authored comprehensive academic coursework critically evaluating complex geopolitical environments, demonstrating strong technical writing and research capabilities.

Education

BS Software Engineering <i>National University of Computer and Emerging Sciences (FAST)</i>	Aug 2024 – Present <i>Peshawar, Pakistan</i>
Higher Secondary Certificate (HSC) <i>Army Public School and College</i>	Aug 2023 – Aug 2024 <i>Hyderabad, Pakistan</i>
Matriculation <i>Army Public School and College, Sindh Regiment Center</i>	Aug 2021 – Aug 2022 <i>Hyderabad, Pakistan</i>
